

TECHNICAL DOCUMENT - Léger démêlé

Collectif À Sens Unique

« Léger démêlé » is a 55-minute outdoor show created for audiences of all ages. The technical conditions noted in this guide must be respected for the show to be safely executed. It is important to read the entirety of this document. The diagrams help to clarify the necessary conditions for the show's installation.

IMPORTANT: If your conditions are different than those mentioned, please contact us for more specific information about possible adaptations.

SHOW LENGTH: 55 minutes

INSTALLATION: 3 hours

The installation may take place the day before or the day of the show, depending on the scheduled show time and the site's technical aspects (risers, lights...)

Approximate schedule: If the show is between 4pm and 5pm, please schedule the installation between 9am and 10am. If the show begins after 5pm, the installation may begin between 1pm and 2pm.

Please provide water for the team at the beginning of installation (access to clean tap water onsite or preference for large bottles to decrease plastic waste, please).

TEAR DOWN: 2 hours

The tear down begins 1 hour after the show is finished.

For both installation and tear down, we need **two people** able to help lift heavy equipment, hammer stakes, unload and reload the van.

SECURITY: To ensure the safety of the audience and the company's material, the stage must be monitored in the company's absence (from the end of installation until 2 hours before the show).

STAGE AREA:

- The technical installation for “Léger démêlé” covers 13m x 13m. We use 4 anchor weights (ballasts) to rig the Chinese pole and the slack rope. These weights are offstage. Please see the diagram on page 3 for more details
- Stage dimensions: An 8m x 8m stage space (wood, cement, risers) must be provided (and installed if necessary) upon the collective’s arrival.
- Stage specifications: For the artists’ safety, the stage must be flat, solid and dry. We cannot perform on a stage with more than a 2° inclination. In the case of rain, a raised stage will increase the show’s chances to play.
- Height: 5.5 meters of free space above the stage for the Chinese pole.
- We provide the carpet and puzzle mats necessary to cover the stage.
- Please provide 4 20-kg weights to help anchor our backdrop.
- Please provide 4 crowd control barriers.

CIRCUS EQUIPMENT:

- The collective provides all rigging materials (straps, carabiners, cables, ‘X’s, etc.) as well as their apparatuses (Chinese pole, slack rope, etc).
- Ground rigging points: 4 points, each with a minimum resistance of 500Kg (see conditions below):
 - The collective can provide stakes to hammer into the soil. Their points are hammered around 90cm into the ground. In the case that we will be rigging with stakes, **please provide a map of the underground electricity, water and gas pipes.**
 - If we cannot use stakes for our ground points, **please provide cement blocks/water containers with integrated rigging points.** It is necessary that they are on site and ready for use before our arrival.

If the technical conditions don’t meet the standards outlined in this document, the artists and technical crew have the final decision about whether or not to perform.

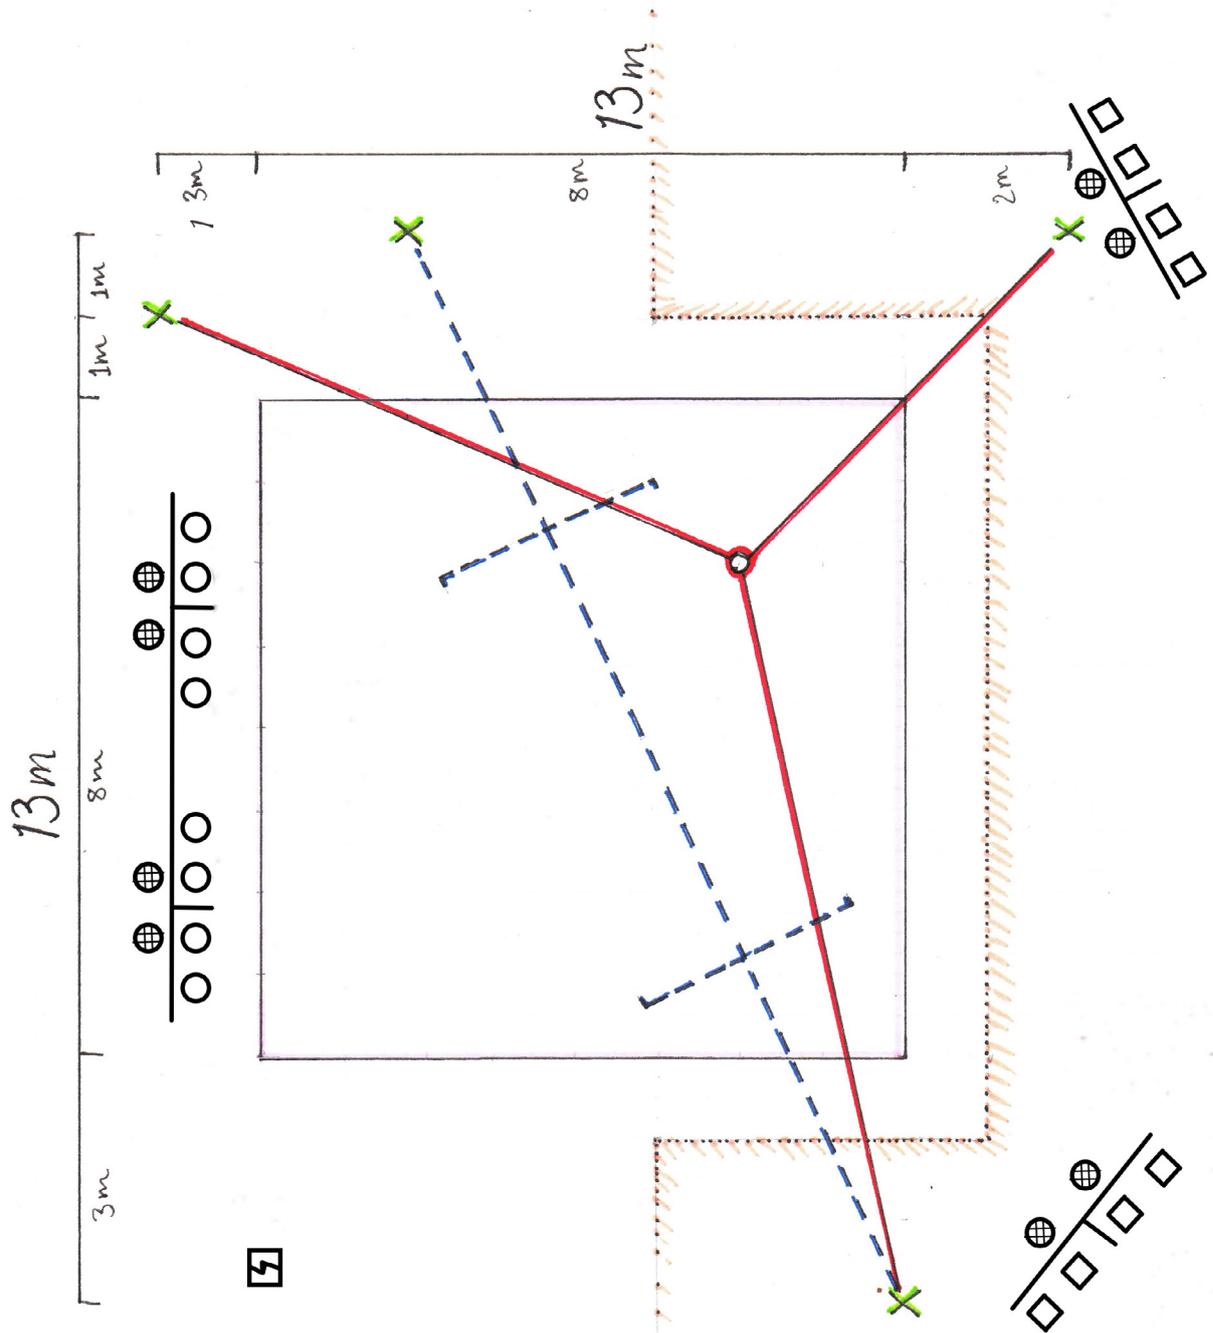

AUDIENCE:

- A semi-circular audience around the thrust stage. Up to 600 audience members.
- The company provides bleachers for the audience, which allows for a better visibility. It is made up of 3 rows and seats 90 people.
- Please consider installing carpets and chairs (provided by the festival). If the audience is large, the rest of the audience can stand.
- On sunny days, we make sure that the audience has their backs to the sun. Please be in contact with our technician before the performance to find an appropriate layout for the audience and stage that is adapted to your space.

ELECTRICAL SPECIFICATIONS:

Please provide a 220V 16A power supply protected by a 30mA differential circuit breaker for the sound system (which will be provided by the collective).

Technical installation : Léger démêlé

Légende

	Stage
	Chinese pole rigging
	Slack rope rigging
	Audience
	Lests / stakes
	Stand 2.5m minimum
	Par 1kW cp 62
	Par 1 kW cp 91
	PC 1kW
	Switchpack 12 channels 2.2 kW

LIGHTING:

The collectif À Sens Unique does not bring light equipment. For all night presentations, please provide:

- PC 1Kw (x8)
- PAR 64 cp 62 (x8)
- PAR 64 cp 91 (x8)
- 4 stands (minimum height: 2,5m) + 4 coupling rods
- 1 dimmer pack 12x2.2Kw
- 1 12-channel console + DMX
- Wiring (enough to cover the entire perimeter of the installation)
- A 63A tri+T+N power line on a 30mA differential circuit breaker (this power feed MUST be independent from that of the sound system).
- A light technician who, if necessary, can set up and manage all the electrical connections.
- Please be sure to provide an extendable ladder for the installation.

(The layout map of the lights is sent upon request)

CLIMATIC CONDITIONS:

(See article 4 of the contract, attached to the creation document)

- A reminder that the presentation cannot take place in the case of:
 - Rain
 - Strong winds (over 50 km/h)
 - Temperatures below 10°
 - Temperatures above 35°
- The show is extremely physically demanding. **For the safety of the artists, we would prefer to avoid performing in direct sunlight.** Please choose a site that will be shaded at showtime.
- The best conditions for “Léger démêlé” are at dusk.

If weather conditions are potentially dangerous, the artists and technical crew have the final decision about whether the show will take place.

RECEPTION DURING THE TOUR:

- Next to or near to the stage, please provide clean and comfortable dressing rooms big enough for 5 artists and 1 technician, with a sink, costume rack and mirrors. Please make sure that this space can be locked or is supervised throughout the duration of the show.
- Please provide sufficient snacks for the day, such as cold and/or hot drinks, water, fruit, dry fruit, granola bars, chocolate bars...
- **7 organic lemons** per show, to be used as props during the show (must be organic, as the artists eat the peel).

ADDITIONAL INFORMATION:

- Special diets : 4 vegetarians
- Le collectif À Sens Unique tours with 1 dog. Please take this into account when booking lodging and other logistics.

THIS TECHNICAL SHEET IS PART OF THE CONTRACT.

DO NOT HESITATE TO CONTACT US IF THERE ARE ANY DIFFICULTIES IN SATISFYING THE TECHNICAL CONDITIONS.

ALL PROBLEMS HAVE A SOLUTION !

Thank you.
